**NETAPHOR SOFTWARE, INC. ANNOUNCES RECORD QUARTERLY REVENUE
GROWTH WITH GLOBAL CUSTOMERS**

Irvine, Calif. (August 25th, 2009) — [Netaphor](http://www.netaphor.com) Software, Inc. (www.netaphor.com), a provider of [managed print service \(MPS\)](#) software, announced record sales for the quarter ending June 30, 2009. With year-over-year quarterly revenue growth surpassing 40%, Netaphor continued to establish a best-of-breed reputation among mid-sized (>1,000 desktops) and enterprise customers (>20,000 desktops).

Strong demand continued for Netaphor's SiteAudit MPS offering in North America and Europe despite economic downturns in both regions. The company added 37 pilots and more than 12 new enterprise clients to its roster during the quarter. New global customers include Volvo IT, an automotive IT services company and Jacobs Engineering Group, a provider of technical services. In addition, the company added one new IT channel partner in Germany, and two new print vendors as channel partners in Spain and France.

"SiteAudit's value proposition and IT-friendly deployment architecture has been well-received by our prospects and customers," said Rakesh Mahajan, CEO of Netaphor. "Netaphor continues to enjoy robust customer demand as organizations seek to optimize their printer fleet placement, reduce print costs and improve service management. During the quarter, we increased our pipeline of potential new customers and experienced strong growth from our channel partners. We expect continued growth for the remainder of 2009."

About Netaphor

Founded in 1997 and headquartered in Irvine, Calif., Netaphor Software, Inc. develops and sells managed print service software that help companies control printer costs. The company's flagship product, SiteAudit, is the industry's first software suite to identify, reduce and manage printer costs, saving organizations up to 30 percent during the printer asset lifecycle. SiteAudit customers include organizations in the pharmaceutical, industrial, technology and education industries including Northrop Grumman, USS-POSCO and Invensys PLC.
