Netaphor Launches Version 5.0 of Managed Print Services Tools

SiteAudit v5.0 On-Site and Hosted Tools Add Integrated Assessment Reporting to Incorporate the Process of Assessment and On-going Fleet Management Functions

Irvine, Calif. – 31 October, 2011 - Netaphor, a provider of managed print services (MPS) software, today announced the release of SiteAudit v5.0. The release provides MPS providers with an integrated assessment report that utilizes key performance indicators (KPIs) built into SiteAudit software. The integration means a separate audit tool is not required. MPS providers can go from the assessment phase to fleet management without changing tools or data collection. Also a new license management feature facilitates obtaining licenses for audit and fleet management. New features include:

Integrated Assessment Report

1. Tabulates Inventory, Volume, Reliability, Efficiency and Supplies KPI data into finished report
2. User definable analysis period and printer scope (Active or Inactive printers)
3. User defined analysis Key Facts and Recommended Actions based on KPI intelligence
4. Personalize with commentary, graphics, logos and provided in editable Word.docx
5. Report comes in German, French and English languages

License Management

1. Flexibility to obtain license key at request time
2. License permits discovery of all printers and designation which printers are for tracking

SiteAudit v5.0 software can be downloaded from the Netaphor web site (www.netaphor.com).

About Netaphor

Founded in 1997 and headquartered in Irvine, Calif., Netaphor Software, Inc. develops and sells software for managed print services. The company's flagship product, SiteAudit On-Site, is the industry's first software suite to identify, reduce and manage printer costs, saving organizations up to 30 percent during the printer asset lifecycle. SiteAudit customers include organizations in all industries including Spectrum Health, Jacobs Engineering and Children's Hospital of Philadelphia.
